**SangStat Announces Agreement with Eli Lilly for Manufacturing of CYCLOSPORINE;
SangStat Retains Worldwide Commercial Rights**

Business Wire, Nov 6, 1996

MENLO PARK, Calif.--(BUSINESS WIRE)--Nov. 6, 1996--SangStat, The Transplant Company (Nasdaq: SANG) announced today that Eli Lilly and Company has agreed to manufacture the finished commercial supply of SangStat's proprietary CYCLOSPORINE product candidate for the anticipated worldwide market.

SangStat has spent several years developing its proprietary CYCLOSPORINE formulation and chose Eli Lilly, a well established, leading U.S. pharmaceutical company with affiliates worldwide, as the preferred manufacturer of the finished product. Eli Lilly will fill and finish bulk CYCLOSPORINE, provided by SangStat, for subsequent commercial sale and distribution worldwide by SangStat.

Eli Lilly manufactured the exhibit batches used in SangStat's pivotal CYCLOSPORINE bioequivalence trials. The results of these trials demonstrated that SangStat's CYCLOSPORINE formulation was clearly bioequivalent to branded cyclosporine, a requirement for FDA approval as a generic drug.

Based on these results, SangStat intends to file an Abbreviated Antibiotic Drug Application (AADA) for marketing clearance with the FDA by year end.

"We are very pleased that Eli Lilly has agreed to be our CYCLOSPORINE finished product manufacturer," said Philippe Pouletty, M.D., Chairman and CEO. "Lilly's excellent reputation in pharmaceutical manufacturing offers the transplant community a name they can trust for this lifesaving medication."

Cyclosporine is the leading immunosuppressive drug used in transplantation to prevent graft rejection. It is currently marketed by Sandoz Ltd. in different formulations with 1995 worldwide sales reported at \$1.2 billion.

In the United States and Europe there are more than 200,000 transplant recipients requiring daily immunosuppressive therapy for the rest of their lives, the majority of whom take cyclosporine.

SangStat is a biopharmaceutical company applying a disease management approach to improve the outcome of organ transplantation. The Company has a total of 12 monitoring and therapeutic product and product candidates to address the pre-transplant, acute care and chronic phases of transplantation.

Products in development include THYMOGLOBULIN(R) (exclusive marketing and development rights from Pasteur Merieux Serums et Vaccins "PMsv" for the U.S. and Canada) to treat graft rejection, CYCLOSPORINE and AZATHIOPRINE for chronic immunosuppressive therapy and ALLOTRAP(R) 2702 to promote graft acceptance following transplantation.

Monitoring products include PRA-STAT(R) and CROSS-STAT(R) (both marketed in the U.S. and Europe), and product candidate TYP-STAT(TM), all designed to improve donor/recipient compatibility. Other monitoring products in development are intended to guide post-transplant therapy; CELSIOR(R) (exclusively licensed from PMsv) is an organ preservation solution; and drug candidate XE-9 is in early development for xenotransplantation.

XENJECT(TM) platform technology also is in the discovery phase for replacing antibody therapy with small

SangStat is located in Menlo Park, and operates The Transplant Pharmacy(TM), a comprehensive pharmacotherapy management program, and wholly-owned subsidiaries, XenoStat, Inc., in Menlo Park, SangStat Atlantique S.A. in Nantes, France and SangStat Canada, Ltd. in Mississauga, Ontario, Canada.

This press release contains forward-looking statements that involve risks and uncertainties. The Company's actual results may differ significantly from the results discussed in the forward-looking statements.

Factors that might cause such a difference include, but are not limited to, those risks associated the company's ability to obtain regulatory approval for its CYCLOSPORINE, manufacturing of commercial quantities of CYCLOSPORINE on commercially favorable terms and the like.

For a discussion of factors that might result in different outcomes, see the section under the caption "Risk Factors" beginning on page 30 of the 1995 Annual Report to Stockholders.
